Docket No. CP23-519-000

NOTICE OF AVAILABILITY OF THE  
ENVIRONMENTAL ASSESSMENT FOR THE PROPOSED  
**RIO BRAVO PIPELINE ROUTE AMENDMENT**

(November 14, 2023)

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Rio Bravo Pipeline Route Amendment (Route Amendment), proposed by Rio Bravo Pipeline Company, LLC (RB Pipeline) in the above-referenced docket.<sup>1</sup> The EA assesses the potential environmental effects of the construction and operation of the Route Amendment in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed Route Amendment, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The proposed Route Amendment includes the following four pipeline route adjustments, all within the state of Texas:

- adjust the certificated route between approximate milepost (MP) 69.8 to approximate MP 79.4 in Willacy County to conform to the U.S. Fish and Wildlife Service's Biological Opinion issued for the Rio Bravo Pipeline Project and to minimize impacts on potential ocelot habitat (the "U.S. Fish and Wildlife Service Route Adjustment");
- adjust the certificated route between approximate MP 92.4 and MP 93.0 in Willacy County to accommodate requirements of the International Boundary and Water Commission and landowner requests (the "North Floodway Route Adjustment");
- adjust the certificated route between approximate MP 99.7 and MP 100.5 in Willacy and Cameron Counties to accommodate a landowner request (the
